Meet The Merchants

Meet The Market Merchants

This week we stop into ZODIES BAKERY then stroll across the mall to JUDY'S COUNTRY KITCHEN. Two vendors who have welcomed shoppers for a number of years at the ever popular White Rock Farmer's Market.

JUDY'S COUNTRY KITCHEN

Judy visits with and helps another happy customer

The highest compliment you can pay quite often to someone's cooking or baking is, "It tastes just like my Mom's." Well that more or less describes the wonderful selection of food items you will find at JUDY'S COUNTRY KITCHEN.

When Cloverdale's "Judy" hit the retirement age she wasn't sure what she was going to do. One thing she knew for sure is she wasn't prepared

to just sit around. "After working for 32 years I knew I couldn't just stop. I have always loved cooking and baking so I decided I would put together some items and start coming to the market. That was four years ago and I have loved every minute of it. I get to meet and talk to so many wonderful people."

You will find some of the finest dill pickles known to mankind. A wide selection of preserves and jellies and an incredible selection of dry rubs that can be used for meats or baking vegetables also are hot sellers.

Editors Note- The roasted potato mix is out of this world. Turns ordinary potatoes into a gourmet meal.

One of the truly unique items available at JUDY'S is her selection of "cone" mixes a premade soup in a bag. "I used to make them in jars, but people find they can travel on airlines much more freely if they are not trying to carry a jar with them. A lot of people that are here visiting or planning on a trip like to pick up a couple different varieties. They are a big seller for me" says JUDY one Sunday morning as the line grows increasingly longer outside her booth.
